

## **Steve Toschi: Priorities**

### **Smart Slow Growth**

- Retain small town values, affordability, and livability.

Include resident input on establishing a clear St. Helens culture and use that culture to direct city governance. Reduce or eliminate unnecessary taxes & fees.

- Look ahead and plan wisely.

Don't try to get around requirements put in place to defend public safety. Plan for inevitable growth so we don't lose who we are while improving our quality of life.

### **Competent Leadership**

- Fiscal responsibility.

Stop bankrupting our future to pay for today's bad decisions. Cut unnecessary spending and direct funds to residents' top priorities.

- Full public transparency, inclusivity, and participation.

Invite & encourage community involvement and transparency in city decisions. Work to overcommunicate, not hide, direction & decisions.

### **More Freedom**

- Defend FREE speech and reduce burdensome taxes/fees.

Require openness to disagreement and listening to all opinions without fear of retaliation.

- Support local business growth.

Reduce unnecessary taxes and regulations & recruit local business that will revitalize St. Helens.

## **Stop Portland Creep**

- Support police & law enforcement.

Ensure our police have the resources they need to protect our residents while maintaining fiscal responsibility.

- No tent cities or failed "Portland" policies

Increase awareness on illicit drug use and mental health issues to prevent increased homelessness.
